

the Right Choice for your Digital Church

Overview

The vision of CristO is "Church sans Papers" - to develop a paperless, technology-driven back office for church management and administration. CristO provides a platform to manage information related to the faithful, communities (parishes) and institutions.

It collates information of the diocese, parishes, families, members, institutes and institutions. It provides possibilities for scientific, comprehensive and accurate analysis based on the actual situations of the faithful, their living circumstances, aspirations and deepest needs.
